

Export Control Assistance Contact List

The following Laboratory organizations are responsible for the area described below and possess technically and administratively qualified personnel to assist employees in assuring compliance: Questions for specific areas should be directed to the staff identified below.

However, if necessary a single point of contact for all areas, is the Export Control Coordinator at ANL-E at 2-2701 and the Export Control Liaison at ANL-W on 3-7495. In addition, an **Export Working Group** has been formed which includes some of the people below, as well as others whose assistance may be needed. This group will meet at least quarterly and/or as needed to discuss export concerns, to resolve complex export issues, and to discuss improvements/efficiencies related to the Laboratory's export processes.
